

# SHARE YOUR 3D XR WORLD.

**Instant. Native. Frictionless.**

**ImmerShare** is a native 3D/XR software distribution infrastructure that transforms complex interactive 3D/XR applications into instant web links. Powered by **ImmerShare Lite** for zero-configuration desktop sharing and **ImmerShare Scale** for full-stack enterprise-grade cloud streaming PaaS, it delivers 8K visual fidelity, ultra-low latency, and complete source-file protection.

## EMPOWERS 3D XR CREATORS & DEVELOPERS

### AI-Era Instant 3D XR Sharing

Zero-Coding. Out-of-the-Box Tool.

### Efficient GPU 90%+ Utilization

Multi-GPU. Multi-App Concurrency.

### AI-Optimized Streaming

Super Resolution. AI Frame Generation.

### Native 3D XR Render

8K. 240 FPS. 100% Native Quality.

### Multi-Cloud & BYOG Model

On-Premises. Public & Private Cloud.

### Universal Compatibility

Engine-Agnostic. All Terminals.

### App Sandboxing & Isolation

Isolated Apps & Workspace Environment.

### Dual-Engine Desktop App to PaaS

P2P Tech. Full-Stack PaaS. SDKs & APIs.

**1,000+**  
Enterprises

**20,000+**  
Developers

**44+**

**20K+ Users**  
Concurrent

# SHARE YOUR 3D XR WORLD.

## From Local Review to Massive Cloud Deployment

**ImmerShare Lite** and **ImmerShare Scale** form a unified 3D/XR software distribution infrastructure covering the **entire development cycle** from early local design reviews to high-concurrency enterprise deployment.

### Pan-Terminal Access & Large-Scale Delivery

**High Concurrency**  
Proven 20,000+ Concurrent Users

### Immersive & Interactive 3D XR Applications

Industrial Training

Architecture & Visualization

Healthcare Simulation

Retail & Virtual Showrooms

Virtual Worlds & Social XR

Automotive Design Review

Gaming & Entertainment

#### CREATION

#### ITERATION

#### DELIVERY

#### END-USE

- Best for Creators.
- 3D Engine, ArchViz & CAD Tools.
- Desktop Software. P2P. Zero Config.
- 1-to-1 & 1-to-Many. Collaborative Mode.
- BYOG. Zero Cloud GPU Cost.

- Best for Enterprise & Dev Team.
- 3D XR Builds. All Leading 3D Engines.
- XR PaaS. GPU & App Mgt. SDKs & APIs.
- N-to-N. High-Concurrency Scaling.
- Multi-Cloud. CCUs: 2/5/10/15/20+.

### Universal Engine Support

3D Engines | ArchViz | CAD Tools

### Flexible & Hybrid Cloud Infrastructure

On-Premises / Public / Private / Multi-Cloud Support
